

How Neuroscience can help to solve AI

Kai Ültzhöffer (see kaiu.me)

[1/2] “The Bayesian Brain” (11.10.2017, 7:30 pm)

- a probabilistic framework to model human action and perception.

[2/2] “A Deep Active Inference Agent” (18.10.2017, 7:30 pm)

- Use the previously introduced theory to train deep agents.
